PROFESSIONAL SUMMARY

MCA student with strong knowledge of Python and Django, along with practical understanding of UI/UX design. Experienced in building responsive web applications using HTML, CSS, Tailwind, and Bootstrap. Good understanding of OOP and backend logic, with the ability to create clean and user-friendly interfaces. Worked on academic and self-driven projects focused on real-world problems. Seeking an entry-level Python/Django developer or UI/UX Designer role where I can contribute both technical and design skills.

TECHNICAL SKILLS

Backend : Python, Django Framework, OOP(Basics)
Frontend : HTML5, CSS3, Tailwind CSS, Bootstrap
Database : MySQL, PostgreSQL
Tools : Git, GitHub, VS Code
Design : Figma, Responsive UI Design

PROJECT

Personal Portfolio Website **Project Link: hemantchaudhari09.github.io**
Tech Stack: HTML, CSS, JavaScript, Bootstrap

- Designed and developed a fully responsive personal portfolio website.
- Built clean and structured layout optimized for desktop and mobile devices.
- Improved loading performance through optimized assets.
- Integrated project showcase, skills section, and contact form.
- Focused on user experience and smooth navigation.

INTERNSHIP EXPERIENCE

Web Developer Intern (December 2025 – March 2026) **Project Link: taponcard.in**

TaponCard.in – Digital NFC Business Card Platform
Tech Stack: Laravel, HTML, CSS, Tailwind CSS, JavaScript

- Contributed to the development of a digital NFC-based business card platform that enables users to share contact details, social links, and business information instantly through tap or QR scan.
- Developed responsive user interfaces using Tailwind CSS for smooth cross-device experience.
- Implemented dynamic profile sections for contact details, social media, and business branding.
- Worked on backend logic for managing NFC card data and user profiles.
- Optimized UI flow to improve user engagement and accessibility.
- Assisted in testing and refining features for performance and usability improvements.
